Our ref: Australia - Modification: installation of tie down rings on A32 and A22 aircraft.

Subject: Manufacturer's authorization of LSA modification

Aeroprakt Limited, the manufacturer of A22LS Light Sport Aircraft, following the requirement 7.3.1 Modifications of Australian AC 21-42 Light Sport Aircraft Manufacturer's Requirements, issues an approval to install tie down rings on A32 and A22 aircraft.

This modification provides convenient tie-down points for an easy and safe tie-down of A32 and A22 aircraft with ropes of suitable size and strength.

See attached description and pictures of the requested installation.

Conditions of approval:

- The installation must be carried out by suitably qualified person(s) with approved qualifications – e.g. an Australian L2/LAME or other qualified aircraft engineer;
- The installation must be inspected and signed in the aircraft logbook as satisfactory by an approved engineer – e.g. Australian L2/LAME or equivalent;
- The modification actions must be recorded in the Aircraft Log Book.
